PERCEPTRONIX ANNOUNCES APPOINTMENT OF NEW DIRECTORS

VANCOUVER, CANADA (December 6, 2005) – Perceptronix Medical Inc. (“Perceptronix”) announced today the resignation of one member of its Board of Directors and the addition of two new members to its Board of Directors, bringing the total Board membership to six.

Dr. Simon Sutcliffe has resigned from the Board due to other commitments. Dr. John MacDonald and Dr. Sherri Magee have been appointed to the Board effective November 25, 2005.

“The Board and Management of Perceptronix are very grateful to Simon Sutcliffe for his contribution to our Board and its committees in the past and are pleased that he has agreed to chair its Medical and Scientific Advisory Board. As a national cancer care leader, Dr. Sutcliffe’s advice will be invaluable,” stated Dr. Milton Wong, Perceptronix’s Chairman and CEO. “We look forward to working with Drs. John MacDonald and Sherri Magee as Directors and are delighted by their willingness to serve in this capacity”, he added.

Dr. John MacDonald is co-founder, Chairman and CEO of Day4 Energy, a solar energy company dedicated to commercializing a new technology with the potential to make solar energy cost competitive with fossil fuel in generating electrical energy. Dr. MacDonald co-founded MacDonald, Dettwiler and Associates Ltd., serving as President and CEO until September 1982 and as Chairman from 1982 until his retirement from the company in 1998. He is a registered Professional Engineer, a Fellow of the Institute of Electrical and Electronic Engineers (IEEE), a Founding Fellow of the Canadian Academy of Engineering and a Fellow of the Canadian Aeronautics and Space Institute. Dr. MacDonald is a member of many learned societies and the recipient of numerous academic and business awards. He was named an Officer of the Order of Canada in 1988. Dr. MacDonald earned a Bachelor’s degree with honours in Electrical Engineering from the University of British Columbia (“UBC”), and a Master’s Degree and Ph.D. in Electrical Engineering from Massachusetts Institute of Technology.

Dr. Sherri Magee has been an independent oncology researcher in the area of cancer survivorship and recovery for the past fifteen years. She co-developed the first private practice cancer rehabilitation program, “Back on Track,” and chairs their advisory board. Dr. Magee challenged medical thinking and management of women recovering from breast cancer when she co-founded the “Abreast in a Boat” dragon boat team society. There are over 90 teams worldwide comprising women living with breast cancer who are spreading the message that “there is a full and active life after breast cancer.” She chaired the first successful “Moving Forward after Cancer” conference held in British Columbia in 2003 and is again chairing the follow-up conference to be held March 2006. Dr. Magee serves on numerous cancer advisory boards and committees and has co-authored a book entitled, “Picking up the Pieces: Survivors Moving Forward after Cancer” which will be available in March 2006. She earned a B.Sc. in Physical Therapy from the University of Montana (Missoula), a M.S. in Sports Medicine and a Ph.D. in Interdisciplinary Studies from UBC.

About Perceptronix Medical Inc.

Perceptronix (www.perceptronix.com) is a private cancer diagnostics company based in Vancouver, Canada. The Company's goal is to commercialize technologies to improve the early detection, localization and diagnosis of cancer, with an initial focus on lung cancer. Perceptronix was founded in 1999 to commercialize early cancer detection technologies developed in partnership with the British Columbia Cancer Agency (www.bccancer.bc.ca), a world-leader in cancer care and research, with a particularly notable track record in pioneering early cancer detection programs.
