### **PERCEPTRONIX SELECTED TO PRESENT AT INTERNATIONAL FORUM PROMOTING INTERDISCIPLINARY COLLABORATIONS**

**VANCOUVER, CANADA – (June 11, 2007)** – Dr. Bojana Turic, President and CEO, Perceptronix Medical Inc. (“Perceptronix”) will present at BioDevice Partnering on June 13 at Technopark in Zurich, Switzerland. Dr. Turic would like to invite all those interested in innovative technologies and services for the early detection of cancer to attend her presentation.

BioDevice Partnering provides an interdisciplinary forum where international decision makers from the various biotechnology and investment community can meet to initiate or develop cross-sector partnerships between their companies.

“In this complex, fast evolving industry, BioDevice Partnering represents a remarkable networking opportunity,” stated Dr. Turic. “This is an excellent forum to showcase Perceptronix’ automated platforms for cancer detection and to develop new relationships with investors and various healthcare sectors to strengthen our presence in the EU.”

Perceptronix has Canadian and EU licences on early cancer detection tests, and is actively seeking partnerships to joint venture its laboratory services.

#### **About Perceptronix Medical Inc. ([www.perceptronix.com](http://www.perceptronix.com))**

Perceptronix Medical Inc. (founded in 1999) is a private cancer diagnostics company based in Vancouver, Canada. Perceptronix commercializes early cancer detection technologies developed in partnership with the BC Cancer Agency, a world-leader in cancer care and research, with a particularly notable track record in pioneering early cancer detection programs.

Perceptronix is focused on offering quantitative image cell analysis services for early cancer detection. Perceptronix’ products and services offer an improvement over existing detection and localization technologies and provide physicians with increased options for prolonging and improving the quality of patients’ lives.

#### **About BioDevice Partnering**

BioDevice Partnering is the largest international drug-device combination event. The conference’s primary focus is Medical Technology and the convergence of this sector with other areas of healthcare. BioDevice Partnering provides an interdisciplinary forum where international decision makers from the various healthcare industries can meet to initiate or develop cross-sector partnerships between their companies.
